

# AutoVac Single Phase Vacuum Loaders

# Weighbatch

Material Handling & Gravimetric Control

Completely Self Contained

High Efficiency Single Phase Vacuum Motor

Pneumatic Filter Back Flush

Slimline Compact Design

## Features:

- Self contained vacuum loader powered by 1 kW single phase motor
- Loading cycle controlled by level sensor with timer running in background, the loader will alarm if level not reached in designated time giving early indication of material supply issues.
- Dynamic and static parts in contact with material are stainless steel
- Fabric filter with automatic back flush cleaning after every cycle for maximum filter life
- Automatic detection and alarm indication if full load not delivered to processing machine giving early warning of material supply issue
- Models available for up to 250 kg/hr
- Slimline design facilitates multiple loaders in close proximity eg. on MiniBlend
- Electrical supply 230 V 50 Hz 1 ph, pneumatic air 6 bar filtered and dry
