

MultiVac Local Loading Systems

Weighbatch

Material Handling & Gravimetric Control

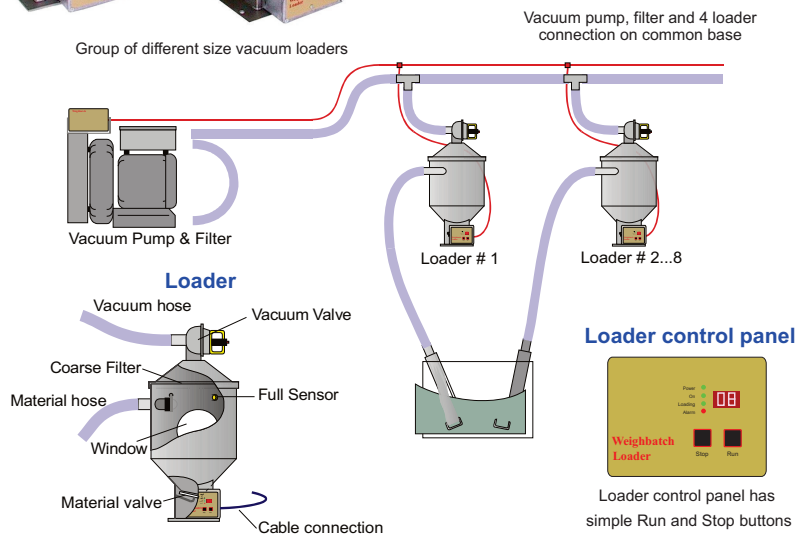

Local Network with up to 8 Loaders !

Only one Vacuum Pump & Filter !

High Utilisation from High Reliability !

Simplifies Operation !

Ideal for Blenders and Small Groups of Loaders

Features:

- Self contained loading system for a group of up to 8 loaders in close proximity with a simple chronological queuing control
- Most of the benefits of a central loading system in an economical and elegant solution where a full CenterVac system is not feasible
- Automatic detection and alarm indication if full load not delivered to processing machine giving early warning of material supply issue
- The MultiVac is a modular system using standard Weighbatch loading system components so can be added to or upgraded to a CenterVac system in future
- Only one vacuum pump to locate and service, and only one filter to clean
- Stand alone system
